Biocide D
General purpose organo-chlorine disinfectant powder
ACT29GNR529/213888/070/273

Description
*Biocide D* is a powerful organo-chlorine disinfectant powder, which contains a blended detergent system to enhance wetting and penetration and improve disinfection. *Biocide D* is recommended for use in medium and high-risk areas in hospitals and other institutions. The powder dissolves readily in warm or cold water, and contains stabilizers and corrosion inhibitors, making it safe for use on most surfaces, including chrome-nickel, ceramics and plastics. *Conforms to SABS 1853 “Disinfectants and Detergent disinfectants for use in the food industry”*.  

**Features**  
• Strong disinfectant  
• Stabilized  
• Packed in 6g sachets  

**Benefits**  
• Fast and effective broad spectrum kill  
• Tolerant to pH changes and organic contamination.  
• Easy to apply at the correct concentration.  

Instructions for use:

**Food preparation areas**
Prepare a solution of one sachet (6 grams) of *Biocide D* in a 9ℓ bucket of cold or lukewarm (not hot) water to yield 250 ppm available chlorine. Use this solution to wash and rinse all table tops, work surfaces, chopping blocks, fridge units, etc. Allow to air dry without further rinsing.

**Vegetables**
Vegetables and salad ingredients will stay crisp longer and will be more hygienic if washed in a *Biocide D* solution than if just rinsed under a tap. Prepare a solution of one sachet (6 grams) of *Biocide D* per 20ℓ of water and wash the vegetables in this. Rinse with clean municipal water.
Biocide D

Dish cloths and towels
Dish cloths and towels can be re-whitened and disinfected by soaking in a solution prepared by dissolving 1 sachet (6 grams) of Biocide D in 9ℓ of cold water.

Properties
Appearance  Coarse white free flowing powder
pH (0.067%)  9.0 typical

The data above is typical of normal production and should not be taken as specification.

Available pack size
10 x 50 x 6g

Safety Precautions
Caution: Harmful and oxidizing: Contains sodium dichloroisocyanurate and sodium metasilicate.

In case of contact with eyes wash immediately with copious amounts of water and obtain medical attention. In case of contact with skin wash skin thoroughly with water. Obtain medical attention if symptoms develop. In case of inhalation remove from source of exposure and obtain medical attention without delay. In case of ingestion remove material from mouth. Drink 1 or 2 glasses of water (or milk) and obtain medical attention without delay.

Full guidance on the handling and disposal of this product is given in a separate Material Safety Data Sheet.
